MAHAM RIAZ

Computer Engineering Student

+92 331 3572 991 | mahammahamriaz51@gmail.com | LinkedIn: Maham Riaz

PROFESSIONAL SUMMARY

Motivated undergraduate Computer Engineering student with hands-on experience in Python, C++, Java, SQL and web development (HTML, CSS, JavaScript), along with practical knowledge of computer networking and embedded systems. Familiar with MATLAB, Git/GitHub and Ubuntu. Eager to learn new technologies and build practical, real-world solutions through programming and problem-solving.

EDUCATION

Bachelor of Engineering in Computer Engineering 2023 – 2027

Sir Syed University of Engineering & Technology

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, JavaScript, SQL, Assembly Language

Web Technologies: HTML, CSS, JavaScript

Networking: Cisco Packet Tracer, VLANs, OSPF/RIP Routing, Inter-VLAN Communication, ACLs

Tools & Platforms: Git/GitHub, Ubuntu, MATLAB (GUI)

Productivity: MS Office (Word, Excel, PowerPoint, Teams)

Concepts: Object-Oriented Programming (OOP), File Handling, Embedded Systems

PROJECTS

Automatic Car Parking System | *Embedded Systems*

- Designed and developed an automated car parking system using embedded system concepts.
- Implemented parking slot management and vehicle entry/exit control.

Harborview Secure Network Design | *Cisco Packet Tracer*

- Designed and implemented a secure network topology using Cisco Packet Tracer.
- Configured VLANs, OSPF/RIP routing and inter-VLAN communication.
- Applied Access Control Lists (ACLs) to improve network security and manage traffic.

Cab Booking Application

- Developed a cab booking application with separate user and driver modules.
- Implemented booking management and ride request functionality.

Student Management System | *C++*

- Developed a system to manage student records efficiently.
- Used file handling for permanent data storage.
- Applied OOP principles to achieve a modular and maintainable design.

PDF Converter | *Java, iText*

- Developed a Java application that converts documents into PDF format.
- Integrated the iText library for accurate, high-quality PDF generation.

Car Sale & Purchase Website | *HTML, CSS, JavaScript*

- Developed a responsive website for buying and selling vehicles.
- Implemented vehicle listing, browsing and search functionality.
- Designed a user-friendly interface for an improved user experience.

INTERNSHIP

Python Programming Intern | CodeAlpha

CERTIFICATIONS

- Web Development (HTML, CSS, JavaScript) – Coursera
- Python Programming – Coursera
- Object-Oriented Programming (OOP) in Java – Coursera
- Computer Networks – Cisco Networking Academy
